

Water Use Efficiency Annual Performance Report - 2014

WS Name: KENT WATER DEPARTMENT

Water System ID# : 38150

WS County: KING

Report submitted by: Michael Pan

Meter Installation Information:

Estimate the percentage of metered connections: 100%

If not fully metered - Current status of meter installation:

Production, Authorized Consumption, and Distribution System Leakage Information:

12-Month WUE Reporting Period: 01/01/2014 To 12/31/2014

Incomplete or missing data for the year? No

If yes, explain:

Distribution System Leakage Summary:

Total Water Produced and Purchased (TP) – Annual Volume	2,659,170,000 gallons
Authorized Consumption (AC) – Annual Volume	2,571,873,927 gallons
Distribution System Leakage – Annual Volume TP – AC	87,296,073 gallons
Distribution System Leakage – Percent DSL = $[(TP - AC) / TP] \times 100$	3.3 %
3-year annual average	5.0 %

Goal-Setting Information:

Date of Most Recent Public Forum: 11/20/2007 Has goal been changed since last performance report? No

Note: Customer goal must be re-established every 6 years through a public process

WUE Goals:

Customer Goal (Demand Side):

The City of Kent will allocate the resources necessary to support measures that will reduce water use by public agencies during the summer months of June through August by 0.5% annually from 2008-2014, with an emphasis on outside water use. To meet this goal, the City will provide educational materials to public agencies regarding water conservation topics, including, but not limited to: water efficient irrigation systems, native landscaping and natural yard care.

Describe Progress in Reaching Goals:

Customer (Demand Side) Goal Progress:

Water use for the period of June-August 2014 rose 9% compared to the same period in 2013. A strengthening economy, increasing number of water customers, and improved meter accuracy have all contributed to this increase in demand. Since the inception of this goal in 2007, overall water use for the period of June-August has decreased 7%.

The City met its goal of maintaining 6% or less lost water for the year, with a 3.3% distribution system leakage percent achieved. The average lost water rate is 3.8% since 2007.

Additional Information Regarding Supply and Demand Side WUE Efforts

Include any other information that describes how you and your customers use water efficiently:
